HR Attrition: Key Findings & Recommendations

KEY FINDINGS

1. Overtime is the strongest driver: 30.5% of employees working overtime left, vs 10.4% of those who don't.
2. Low pay increases risk: employees earning under \$3k left at 28.6%, vs 8.9% for those earning \$10k+.
3. Job satisfaction matters: the lowest satisfaction score had 22.8% attrition vs 11.3% for the highest.
4. Younger employees leave most: under-30s had 27.9% attrition vs 9.7% for ages 40-49.

RECOMMENDATIONS

1. Review overtime workloads and cap or rebalance hours in the highest-risk teams.
2. Benchmark pay for roles under \$3k and consider targeted pay or progression changes.
3. Run regular satisfaction check-ins and act on low scores early.
4. Build mentoring and career pathways for employees under 30.
